

**CERTIFICATION, TROUBLESHOOTING, and INSTALLATION** tools for professionals who install and maintain critical network cabling infrastructure.

## Featured copper cable test solutions

[www.flukenetworks.com/copper](http://www.flukenetworks.com/copper)

**Cable testing you trust.**  
**Network testing you need.**  
**Now Wi-Fi 6E ready.**

### LinkIQ™ Cable+Network Testers

- Cable performance testing up to 10GBASE-T plus troubleshooting (distance to fault, wire map, toning)
- IPv4 and v6 ping, nearest switch diagnostics (IP address, name, port / VLAN number, and advertised data rates).
- Ethernet Alliance certified PoE Verification – detects the PoE class (1-8) and power, performs a load test
- Wi-Fi analysis to Wi-Fi 6E, including networks, channels, and access points
- Manage results and print reports from LinkWare™ PC

### Add capabilities with our LinkIQ kits:

- Connect to 1 and 10 Gb/s fiber networks
- Identify and trace copper or fiber cables
- Inspect for and solve fiber contamination issues
- Measure fiber optic power levels and loss
- Check fiber transceivers and polarity
- Pinpoint coax or fiber faults
- Cut, strip, and terminate copper cabling
- Measure voltage, current, resistance and temperature in even the most hostile environments

[www.flukenetworks.com/LIQ\\_Kits](http://www.flukenetworks.com/LIQ_Kits) for more information

### MicroScanner™ Series

- Displays cable length, wire map, cable ID, and distance to fault
- Displays PoE class (1-8), power (to 90W) and voltage (MS-PoE)
- Locate and trace cables with IntelliTone™ or Pro3000 probes
- Tests RJ11, RJ45, and coax
- Displays network switch speeds up to 10G
- Ethernet Alliance PoE Certified for faster and easier integration

### MicroMapper™

- Verify correct and erroneous wire map
- Tests twisted pair cables for open circuits, shorts, crossed pairs, reversed pairs and split pairs
- Remote identifier enables one-person testing
- Locate and trace cabling with Pro3000 probe

## Fiber fault location, power meters, and light sources

[www.flukenetworks.com/fiber](http://www.flukenetworks.com/fiber)

### MultiFiber™ Pro MPO Loss Tester

- Automatic scanning and testing of 8 or 12 fibers in MPO connectors
- MM and SM versions available
- Cuts MPO test time 70% or more
- Automatically measures and reports polarity

### FiberLert™ Live Fiber Detector

- Light and sound indicate presence of optical signal (850 to 1625 nm)
- Suitable for ports and patch cords, SM, MM, UPC and APC
- “Non-contact” detector reduces the risk of contamination and damage
- Checks transceivers and polarity

### Fiber QuickMap™

- Locates and displays connections and breaks
- Tests MM fiber to 1,500 meters (4,921 ft)
- Simple set-up
- Displays loss and distance to fault

### SimpliFiber® Pro Power Meter/Light Source

- Supports single-mode and multimode
- Measures and stores two wavelengths at once in a single record for faster testing
- Min/Max capability tracks intermittent power fluctuations

### VisiFault™ Visual Fault Locator

- Locates tight bends, breaks and bad connectors
- Verifies polarity and identifies fibers
- Continuous and flashing modes
- Rugged design

## Copper cable toners and probes

[www.flukenetworks.com/toner](http://www.flukenetworks.com/toner)

### Pro3000™ Analog Tone and Probe Family

- Filter technology blocks annoying “buzz”
- Identifies pairs with SmartTone™
- 10 mi (16 km) range
- Tones through drywall, wood, and other enclosures
- Angled bed-of-nails clips and RJ-11 connector

### TS™ Series Fault Finders

- Supports two-conductor cables up to 915 m (3,000 ft.)
- Displays distance to end or fault
- SmartTone™ positively identifies pair

### IntelliTone™ Pro 200 LAN Tone and Probe

- Digital toning eliminates noise and false signals
- Identify pairs with SmartTone™
- Locates active networks
- Visible end-to-end continuity test
- Built in wire mapper
- Works on twisted pair, audio, and video cabling

## Fiber cleaning and inspection

[www.flukenetworks.com/inspect](http://www.flukenetworks.com/inspect)

### Fiber Optic Cleaning Kits

- Eliminates the #1 cause of fiber failure: contamination
- Supports wide variety of connectors
- Quick Cleaners for end-faces and ports
- Fiber solvent and cleaning cards leave no residue or dust

### FI-500 FiberInspector™ Micro

- PortBright™ illumination for dark panels
- Auto-focus
- Clearly displays MM and SM
- Includes four UPC tips; APC available

See page 4 for our MPO Inspection Solution

### Quick Clean™ Cleaners

- Available in 1.25 mm, 2.5 mm, and MPO styles
- Clean over 500 end-faces per unit
- Tip extender to 208 mm for hard-to-reach connectors

### Test Reference Cords (TRCs) and OTDR Launch Cables

- Standards-compliant with reference grade connectors
- Durable metal LC connectors
- Launch fibers feature a rugged, convenient zipper case

## Hand tools

[www.flukenetworks.com/tools](http://www.flukenetworks.com/tools)

### D914™ Series Impact Tools

- Hook, spudger and blade storage built-in
- Adjustable impact for different wire gauges
- Optional screwdriver, sockets and bits

### JackRapid™ Punchdown Tool

- Eight times faster than traditional impact tools.
- Convenient, built-in stripper
- Adapters for a variety of vendors' jacks

### Pro-Tool™ Kits

- Dur-a-Grip™ pouch and belt clip keeps tools handy
- Available with impact tool, D-Snips™, cable stripper, and flashlight

Modular Crimper

Need-L-Lock™ Crimping Pliers

D-Snips™

Cable Strippers

Probe Pic

Can Wrenches

4 and 8 position Modular Adapters

## Telephone butt-in test sets

[www.flukenetworks.com/telco](http://www.flukenetworks.com/telco)

**TS™54**, combines advanced test set, toner, TDR and pair identifier in military grade rugged package

**TS™52PRO**, military-grade ruggedness with display and advanced features

**TS™22 Series**, rugged design with time-saving features

**TS™30 Series**, rugged design priced right

**TS™25D**, feature-rich design for DSL installs

## VERSIV™

[www.flukenetworks.com/Versiv](http://www.flukenetworks.com/Versiv)

- ProjX Management System streamlines testing and prevents errors
- Built-in “Fault Info” pinpoints even complex failures
- Worldwide support team with 100+ years of experience
- 1,000+ how-to articles and videos
- Legendary Fluke ruggedness and reliability

## Certify and Troubleshoot

### DSX CableAnalyzer™ Series Copper Certification

Meets the most stringent TIA and IEC accuracy requirements. Endorsed by 30+ cable manufacturers; supports hundreds of cable types and standards.

### Manage the Process: LinkWare™ Live

Upload test results over Wi-Fi and consolidate results across multiple testers. Create and manage test setups and ID's. Track results, last used location, and calibration status online.

### CertiFiber™ Pro

Certifies two fibers at two wavelengths in under three seconds. “Set Reference” wizard prevents common setup errors.

### Document Results: LinkWare PC

Save, maintain, and share test results. Generate professional, customizable reports with the industry's de facto reporting standard.

### OptiFiber™ Pro

Automated setup and analysis quickly identifies events in LANs, datacenters, PON, and FTTH.

### Become an Expert: CCTT

The 10,000 graduates of our Certified Cabling Test Technician™ program finish jobs faster, avoid mistakes, and deliver results accepted by manufacturers and customers. The two-day course covers copper and fiber; earns 14 BICSI CECS.

### FiberInspector™ Pro

Automated pass/fail testing of single fiber end faces.

[www.flukenetworks.com/cctt](http://www.flukenetworks.com/cctt)

### FiberInspector™ Ultra

Automated pass/fail testing of MPO and single fiber end faces with Versiv or smartphone.

### Reduce Support Costs: Fluke Premium Care

Minimize downtime and optimize ROI with a comprehensive service agreement that includes priority service, extended warranty coverage, calibration assistance, and access to loaner units during repairs.
